**TO THE PUBLIC.**  
I have for nearly four years been doing business in Woodstock. I do not claim to do all of the fine work in the vicinity but my repair record will show that I enjoy the patronage of the greater number of citizens of Woodstock and vicinity, and many from all parts of Shenandoah county.  
Up to this date my watch repair record shows the names of many prominent citizens of Woodstock and Shenandoah who carry fine time pieces, and to whom I can refer as to character of my work, not only on watches but all lines belonging to a competent Jeweler. I not only get work from all parts of Shenandoah but from other counties and different parts of the State, and frequently from distant States. It is well known that I am always busy early and late accommodating my patrons who appreciate good work and reliable goods in my lines, along with courteous attention and unquestioned guarantees. It is also a well known fact that my prices are reasonable, quality and character of work considered.  
Very Respectfully,

It gives strength to the human system. It is pleasant to the taste and palatable, and the only combination of digestants that will digest the food and enable the system to appropriate all of its health and strength giving qualities.
